A. D. MELVIN, CHIEF OF BUREAU

## SERVICE AND REGULATORY ANNOUNCEMENTS.

APRIL, 1914.

[This publication is issued monthly for the dissemination of information, instructions, rulings, etc., concerning the work of the Bureau of Animal Industry. Free distribution is limited to persons in the service of the bureau, establishments at which the Federal meat inspection is conducted, public officers whose duties make it desirable for them to have such information, and journals especially concerned. Others desiring copies may obtain them from the Superintendent of Documents, Government Printing Office, Washington, D. C., at 5 cents each, or 50 cents a year. A supply will be sent to each official in charge of a station or branch of the bureau service, who should promptly distribute copies to members of his force. A file should be kept at each station for reference.]

**NOTICES REGARDING MEAT INSPECTION.****MARKING WRAPPED MEATS.**

Referring to the instructions in Service and Regulatory Announcements for January, 1914, under the caption "Marking wrapped meats," attention is called to the fact that these instructions apply to all meats wrapped in burlap or other cloth covering to which trade labels are not ordinarily affixed.

Attention is also called to the fact that the bureau furnishes 2½-inch rubber brands for this purpose, which will be furnished to inspectors in charge upon receipt of requisition indicating the number required for each establishment.

**CLEANING HOG PRODUCTS.**

The attention of inspectors in charge is earnestly directed to various notices appearing in Service Announcements dealing with the cleaning of hog products. It is very necessary that these instructions be carefully and fully complied with and that no products be permitted to leave an establishment in an unclean condition. Inspectors in charge are directed to report any failure on the part of individual inspectors to comply fully with these instructions.

REPORTING MOVEMENT OF SOUTHERN CATTLE FROM STATIONS  
WHERE UNLOADED FOR FEED, REST, AND WATER.

Southern cattle which are unloaded in the quarantine pens at any station for feed, rest, and water, in transit, and are reloaded and forwarded in the same cars, should not be reported either as receipts or shipments of southern cattle on the monthly F. I. Form 19 report from that station, nor should the cars in which such cattle are reloaded be reported on the F. I. Form 62 as infectious cars received at that station; neither is it necessary to forward an F. I. Form 21 report for such reloaded shipments.

## THE OPHTHALMIC TEST FOR GLANDERS.

A pamphlet entitled "The Ophthalmic Test for Glanders" has been printed, containing explanations of and instructions for applying this test, and copies have been mailed to bureau inspectors in charge. Additional copies may be procured upon request.

Ophthalmic tests applied by bureau inspectors and by official veterinarians of the various States in intrastate glanders investigations should be reported upon Q. D. Form 69. Any supplies of Q. D. Form 59 on hand should be destroyed.

## REGULATION OF THE ARGENTINE REPUBLIC RELATIVE TO IMPORTED FOOD PRODUCTS OF ANIMAL ORIGIN.

"It is decreed—

"That the following regulation proposed by the National Department of Hygiene for the shipment of food products of animal origin be herewith approved:

"1. In virtue of those that determine the regulations at present in force, it is required of manufacturers or importers of products of animal origin to indicate henceforward clearly on the packages of each shipment, the class of alimentary substance from which each canned product, be it fish, tunny fish, sardines, etc., or any other class of meat of domestic or other animals, has been made up; without which requirement such goods will not be permitted to enter the country.

"2. In like manner it is required to announce on the shipment the name of the manufacturer and the source of origin in accordance with the rules established in the article already cited.

"3. There is allowed a period of six months from the date of official publication of this resolution for those thereby affected to arrange to carry out the conditions set by the preceding articles, with the understanding that in case they do not do so they shall incur the penalties which are set by the regulations now in force. This period of time should be understood, concerning shipments of merchandise in steamers which sail from foreign ports, as beginning with the date of the completion of the time granted, which will under no circumstances be prolonged."

## PUBLICATIONS IN APRIL.

[The bureau keeps no mailing list for sending publications to individual employees, but publications are sent in bulk to inspectors in charge for distribution to members of their forces. The number of copies varies with the subject or nature of the publication and the number and class of employees. For example, in the case of a publication on a veterinary subject, sufficient copies are sent for the veterinarians. Inspectors in charge will use their judgment and distribute publications to best advantage. Additional copies will be furnished on request so far as possible.]
